## eCell 2

### CONCEPT

#### DESIGN BY MARTIN SAAR

eCELL 2 is a noise-reducing two-seater phone booth that makes you feel like you are the only one in the office. Its goal is to isolate and reduce the noise sources in an open office so that the individual does not disturb the co-workers and vice versa. It gives you enough privacy to focus and feel comfortable while keeping a visual contact with the surroundings.

It has everything for an ease of use such as a fully integrated electrical connections (230V + 5V USB), LED lighting and constant fresh air circulation which are both triggered by a motion sensor to save energy.

The first and only design to use fabric on the outer shell making it a cozy and inviting space to blend in your office.
